

# SIMULIA VIRTUAL TECH DAYS ELECTRO MAGNETISM

e-Seminar Series August 31<sup>st</sup> - September 4<sup>th</sup>, 2020

## SIMULIA Tech Days

The trend to **develop better products, faster and cheaper**, is increasing dramatically in economical difficult times.

Many decision makers are facing **conflicting objectives**:

- Short-Term savings in operational cost (OPEX)

- Increase innovation to realize better product KPIs

The use of **simulation in the development process is helping verifiably** to achieve better product KPIs and is well established in many companies. No matter if you are new to the topic of simulation or already using this technology:

**Taking a look at our best in class solutions is worth it.**

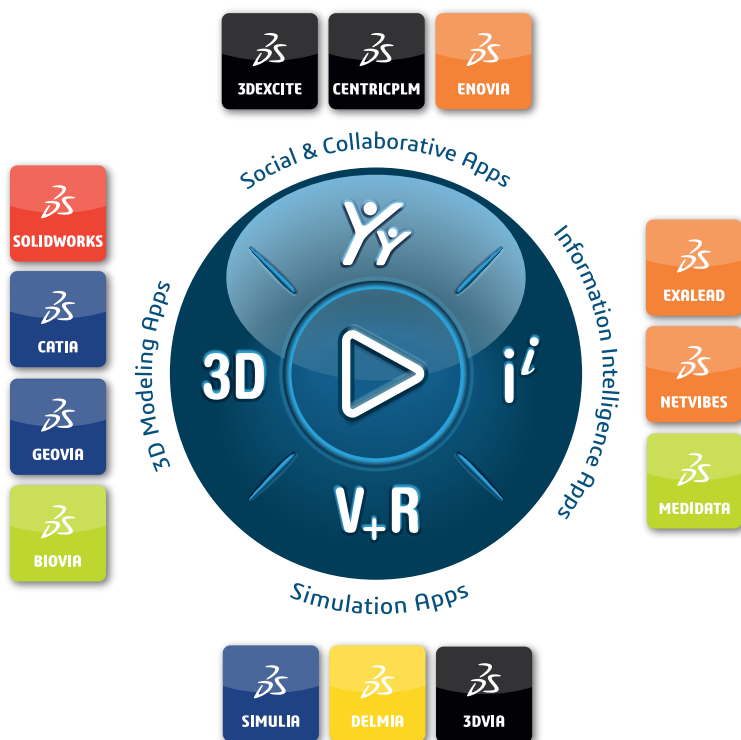

And we are offering you a week of technical content for different electromagnetic applications where our solutions can help you. Take a look at the agenda, select the topics that are relevant for you, and **join us in our virtual SIMULIA Tech Days**.
