

SIMULIA VIRTUAL TECH DAYS STRUCTURAL MECHANIC

e-Seminar Series September 7th - 11th, 2020

SIMULIA Tech Days

The trend to **develop better products, faster and cheaper**, is increasing dramatically in economical difficult times.

Many decision makers are facing **conflicting objectives**:

- Short-Term savings in operational cost (OPEX)
- Doing the same or even more work in less time
- Increase innovation to realize better product KPIs

The use of **simulation in the development process is helping verifiably** to achieve better product KPIs and is well established in many companies. No matter if you are new to the topic of simulation or already using this technology:

Taking a look at our best in class solutions is worth it.

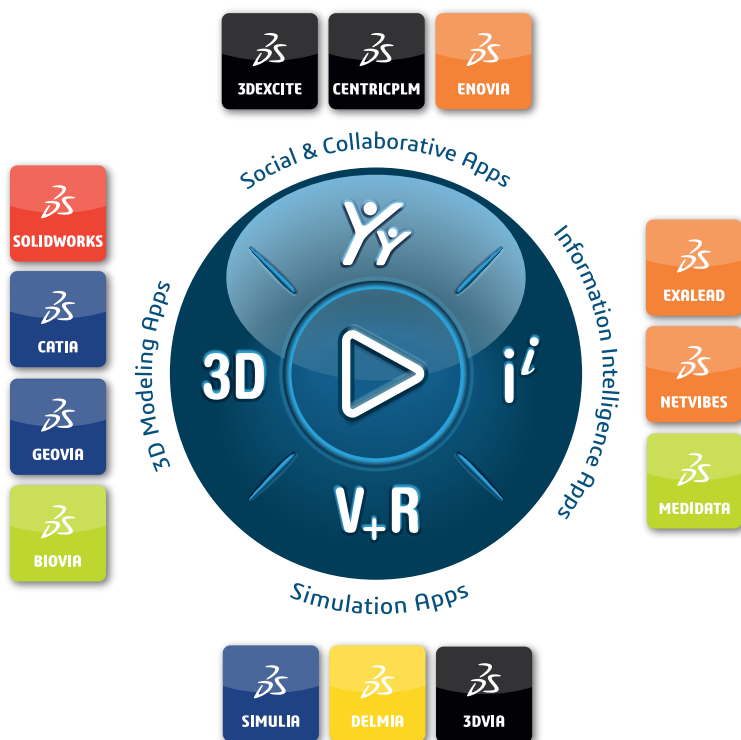

And we are offering you a week of technical content for different structural mechanical applications where our solutions can help you. Take a look at the agenda, select the topics that are relevant for you, and **join us in our virtual SIMULIA Tech Days**.

Agenda:

- 09-07-2020 - Thermomechanical Simulation
- 09-08-2020 - Simulation of Additive Manufacturing
- 09-09-2020 - Contact und Convergence in a Simulation
- 09-10-2020 - Simulation of Plastics
- 09-11-2020 - Simulation of Metal Sheets and Welded Joints

Our 3DEXPERIENCE® platform powers our brand applications, serving 11 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the 3DEXPERIENCE Company, is a catalyst for human progress. We provide business and people with collaborative virtual environments to imagine sustainable innovations. By creating 'virtual experience twins' of the real world with our 3DEXPERIENCE platform and applications, our customers push the boundaries of innovation, learning and production.

Dassault Systèmes' 20,000 employees are bringing value to more than 270,000 customers of all sizes, in all industries, in more than 140 countries. For more information, visit www.3ds.com.
